METROPOL

adéntrate en un espacio de detalles únicos
open up to a space of uniqueness of detail

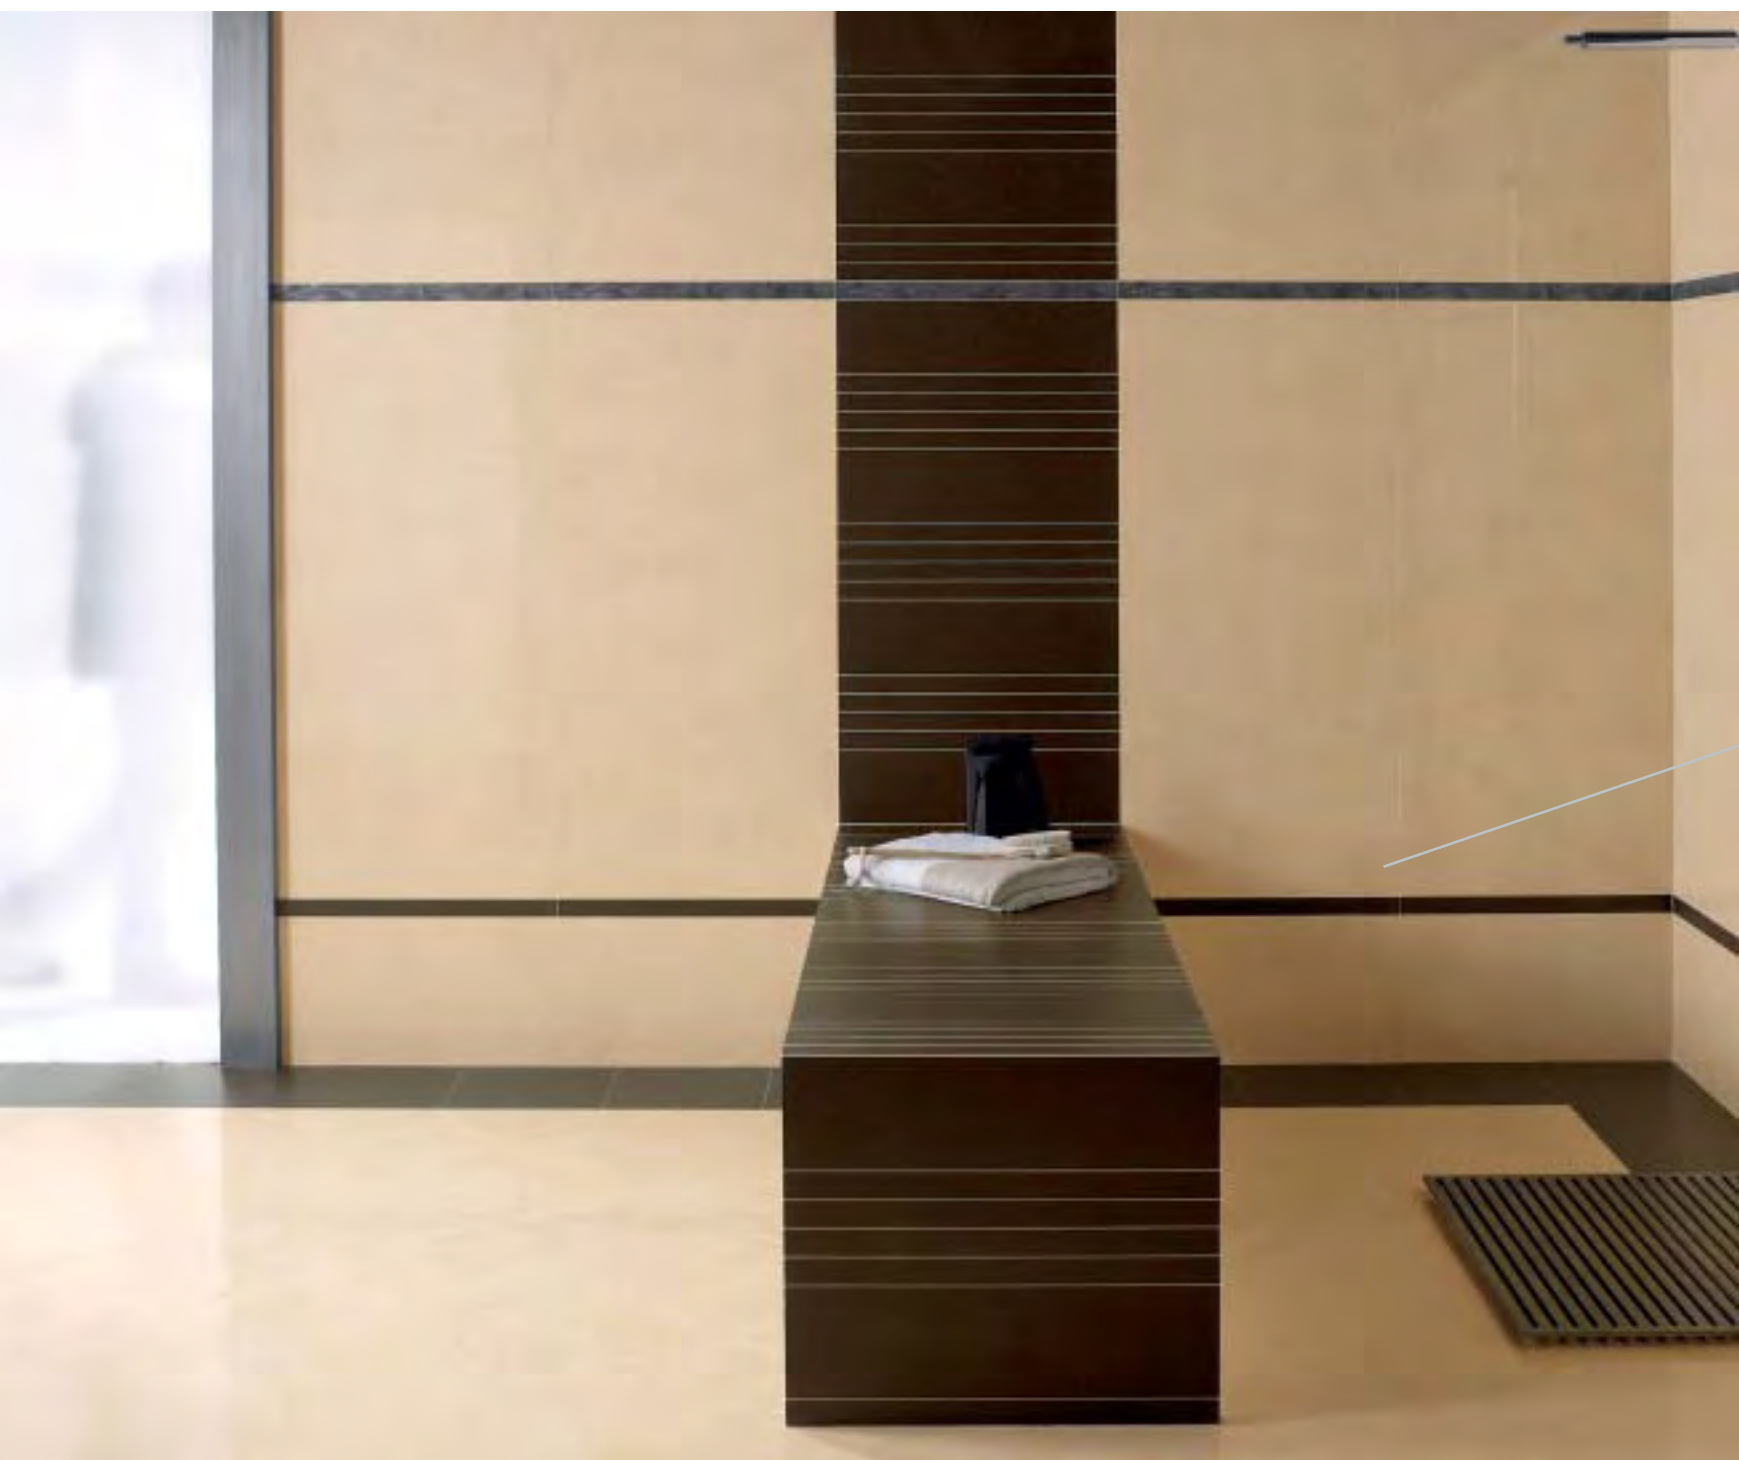

Nos atrae lo inverosímil,
pero no sabemos si por bello
o simplemente por su imposibilidad.

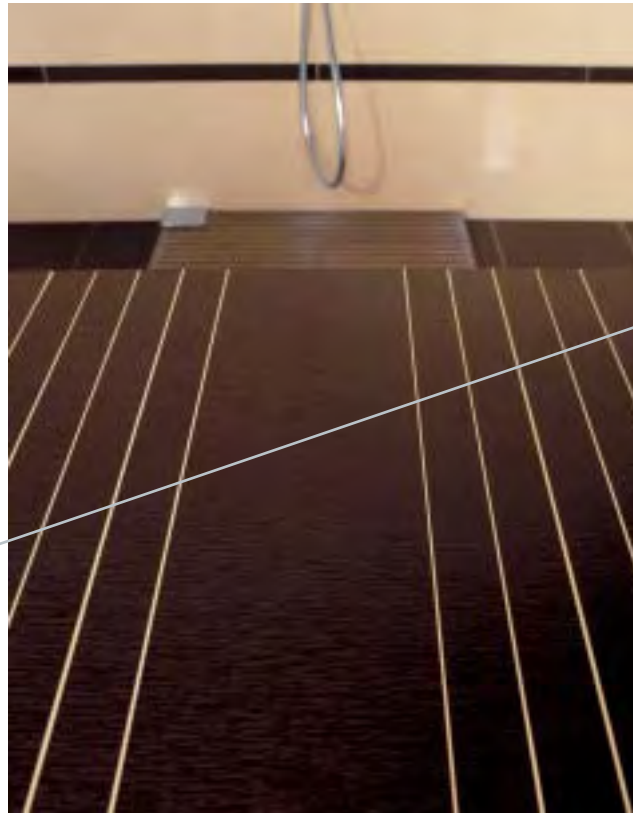

The beauty of the unreal beacons
our mind's eye -or is it merely
its sheer unattainability?

En una sola línea
puede contenerse
todo el Universo.

The whole universe
can be contained in
just one line.

la verdadera paz vive allí,
donde se entrelaza
la realidad con los sueños.

true peace is there where
dreams intertwine with reality.

Todo está ordenado. Todo.
Hasta este inmenso silencio.

Everything is but an orderly
cosmos, from the vast
wholeness of Universe to
this utterly silence.

La luz da vida a los objetos, pero todo,
hasta la luz, está en nuestros ojos.

Light does bring life to all things, yet everything
-even light itself- is in the eye of the beholder.

Todo cuanto nos rodea se sostiene en permanente acrobacia sobre la más pequeña levedad.

The world around us is but a pirouetting stunt performed weightlessly on the slightest of flimsiest supports.

Cada mañana observamos la brillante imagen del día.

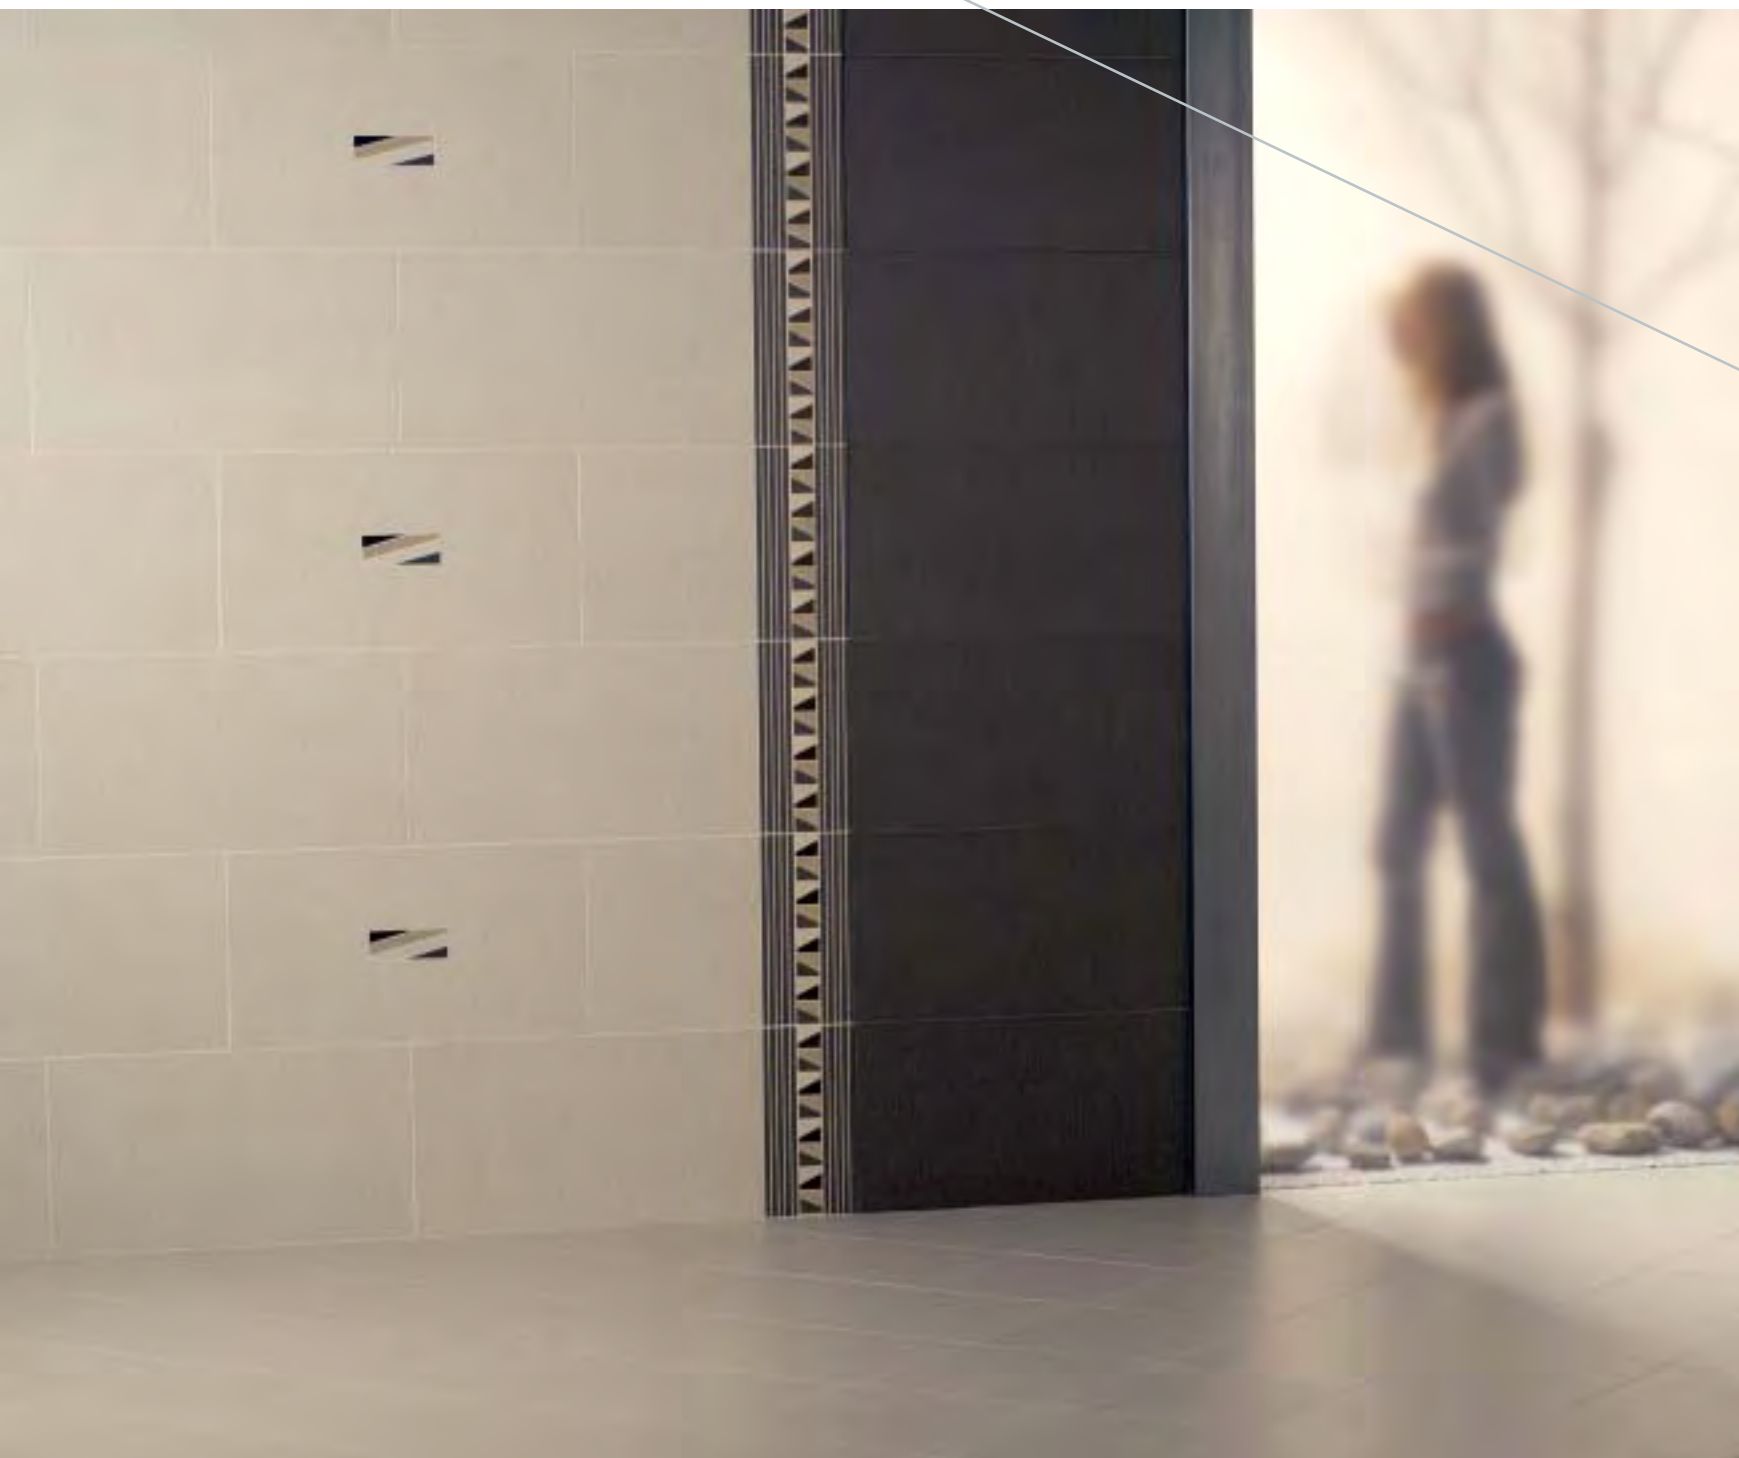

Everyday, morning's sharp contours are made visible to our eyes.

Buscamos siempre más allá pero a veces lo que
anhelamos está de este lado.

Beyond the world's limit we are always looking for
-yet our yearnings very often do lie this side of the fence.
