XES-50 Series Stereo Microscopes

The XES-50P is a simple stereo microscope for use in schools, field study work and in industry for routine inspection of components. Two versions of this instrument are available with a choice of total magnification of 10x or 20x.

Although small, this instrument has excellent optical quality providing ease of use and clarity of images.

XES-50P

XES-50P consists of the following:

Body	Die cast aluminium
Head	Upright binocular head with adjustable interpupillary distance from 55mm to 75mm
Eyepiece	Paired W10x with ± 5 diopter adjustment on one eyepiece
Objective	Single slide-in 1x or 2x
Stage/Stand	110mm x 120mm plain stand with removable white/black plate 94.5mm diameter and spring clips
Focusing	Rack and pinion
