3-AXIS DISCREET FIXED DOME

The increasingly popular discreet range of Vista Varifocal domes sits in a unique position of offering both overt but discreet surveillance, giving peace of mind without undue intrusion. Making them ideally suited for hotel & office corridors, reception and lobby areas.

Vista has now improved its extensive range of high quality high resolution Vari-Focal Domes. They have been designed with a 3 - Axis Gimble to facilitate greater flexibility if the dome needs to be installed on a wall. In maintaining their current housing design and size they continue to provide the discreet video surveillance that have made them such a successful and popular camera, with different and coloured options for base and bubble to blend with all environments.

THE UK'S PREMIER CCTV BRAND
