

TYPE 317/428 MOUNTING BRACKET

Description The type 317 and 428 range of wall brackets are specifically designed to support housings and / or camera combinations up to a maximum weight of 15kg for the type 428, 5kg for the type 428B and 10kg for the type 317. Slackening a single bolt releases the head assembly which enables the camera to be panned through 360 degrees and tilted through +/- 70 degrees before locking in the desired position.

The type 428 is available with a transfer plate in place of the manual pan & tilt mounting, please add suffix 'B' to the type number when ordering this option. Extended trunnion bar versions are also available for the range, allowing single or double infra-red lamp mounting alongside the camera housings.

Brackets are constructed from aluminium die castings with a powder coated and stoved finish as standard.

Build Options:

/IRS = Single IR lamp mounting facility
/IRD = Double IR lamp mounting facility
/B = Motorised pan & tilt mounting plate
(428 only)

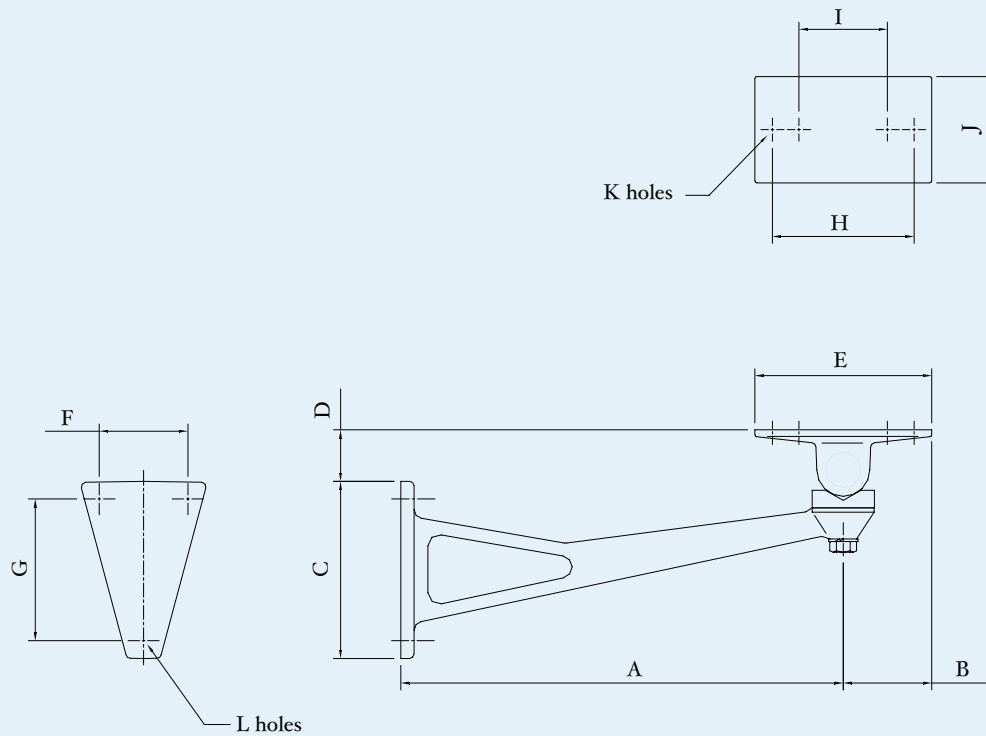

Key features:

- Constructed from die cast aluminium, powder coated & stoved
- A range of build options available
- Payloads of up to 15kg (428)
- Payloads of up to 5kg (428B)
- Payloads of up to 10kg (317)
- 360 degrees pan movement
- +/- 70 degrees tilt movement
