JOSEP LLUSCÀ

Barcelona, 1.948

Diseñador Industrial por la Escuela Eina de Barcelona, profesor de su departamento de diseño de producto y miembro del Consejo Rector de éste.

Ha sido Vicepresidente de ADI-FAD, miembro del Consejo de Diseño de la Generalitat de Catalunya y del Consejo Asesor de la Fundación BCD. Desde 1972 ha colaborado con prestigiosas empresas internacionales: Cassina, Driade, Enea, Flos, General Electric, Oken, Permasa, Rosenthal, Sanyo, Sala Lee, Seat, WMF.

La diversificación de sus proyectos le han permitido colaborar en áreas industriales tan diversas como: iluminación, mobiliario, packaging, electrodomésticos, electrónica aplicada, juguetes, equipamiento urbano, menaje, material eléctrico, automoción y transporte etc.

Ha recibido prestigiosos premios internacionales de diseño: Delta de Oro de ADI-FAD, "Industrial Design Excellence Award" de la Industrial Design Society of America (USA), "IF- Product Design Award for Excellence Design" del IF-Industrie Forum Design de Hannover, "Best of Neocon" en Chicago, "Premio Internacional del Aluminio ALAN" de la Fundación Sueca de Diseño Industrial, "Premio Nacional de Diseño" en España etc.

Sus diseños figuran en museos de todo el mundo, y han merecido la atención de los medios de comunicación y la prensa especializada.

He studied industrial design at the Escuela Eina of Barcelona, and is a teacher in its Product Design Department and a member of its Governing Council. He has been Vice-president of ADI-FAD and member of the Design Council of the Regional Government of Catalonia and the Consultant Council of the BCD Foundation. Since 1972 he has worked for prestigious international companies: Cassina, Driade, Enea, Flos, General Electric, Oken, Permasa, Rosenthal, Sayo, Sara Lee, Seat, WMF. The diversification of his projects has allowed him to work in very different industrial areas, such as lighting, furniture, packaging, electrical appliances, applied electronics, toys, urban equipment, household items, electrical material, self-motion and transport. He has received important international design awards: The Golden Delta of ADI-FAD, the Industrial Design Excellence Award of the Industrial Design Society of America, the IF-Product Design Award for Excellence Design of the IF-Industrie Forum Design of Hannover, the Best of Neocon in Chicago, the ALAN International Aluminium Award of the Swedish

foundation of Industrial Design, the National Design Award in Spain, etc. His designs can be found in museums all over the world, and have attracted the attention of the media and the specialised press.
