

Label Design Made Simple

Easy to Learn, Easy to Use

A few quick mouse motions are all it takes to combine bar codes, text and graphics into professional, quality labels. Strict adherence to Microsoft's official user-interface guidelines means if you've used even one other Windows program, you're ready to start designing labels now. Carefully organized menus and "pop-up" dialogs display even the most advanced options in plain, easy-to-understand words. So customizing labels is easy. And, with the industry's most powerful Undo command, even beginners never have to worry about materials.

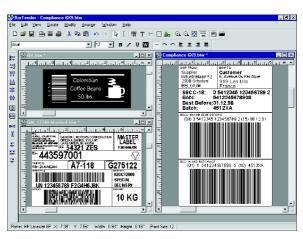

beginners never have to worry about making mistakes. But advanced users still have all the power they'll ever need.

Label objects are easily modified. Simply "double click" to open tabbed dialogs for fast changes.

Exceptional Design Flexibility

With BarTender, you have total control over your label's appearance. You control the style and size of the text, the size and quantity of the bar codes and which bar code language to use (over 20 available).

MDI (Multiple Document Interface) lets you manipulate and print multiple label designs.

True WYSIWYG Display

BarTender doesn't just "preview" or approximate how your labels will look. Bar codes and different text sizes are shown with extraordinary precision. By accurately viewing your label images *before* you print them, you finish your design work faster.

Designer Typefaces, Even on Thermal Printers

Thermal printer users are no longer limited to just a few built-in typefaces. Seagull's printer drivers let you output the same rich variety of Windows-based TrueType and Adobe fonts previously available only on laser printers. All fonts scale smoothly to any size.

Import and Export Graphics

It's easy to add company logos and pictures of products. BarTender supports most major graphic formats. You can also export bar codes for use in other programs.

BarTender Features Summary

Professional Enterprise

FEATURES	E	DITIO	VS
LICENSING / SUPPORT			
Printer-based Licensing			
User-based Licensing	•	•	
Free Technical Support	•	•	
OS Support: Windows 95, 98, Me, NT, 2000, XP	•	•	
International Language Support	•	•	
On-line Support	•	•	
Context-sensitive Help	•	•	
LABEL DESIGN			
Password Protection		•	
True WYSIWYG Label Design	•	•	
Built-in Printer Font Support	•	•	
Windows TrueType Fonts	•	•	
White-on-Black Text Printing	•	•	
Scale Text Horizontally or Vertically	•	•	
Automatic Paragraph Text Wrapping	•	•	
Align Text Left, Right, Center or Justified	•	•	
Unlimited Undo/Redo Command	•	•	
Lines, Boxes and Graphic Images	•	•	
Fix Text to Rectangular Box		•	
Import Graphics in BMP, DCX, DIB, DXF, EPS, IMG, JPG, PCX, PNG, TGA, TIF, WMF, WPG	•	•	
Resize, Rotate and Stretch Objects	•	•	
Export Bar Codes and Labels for Use in Other Programs		•	
Automatic Positioning and Alignment	•	•	
Rectangular Label Outline	•	•	
Circular Label Outline		•	
Full Color Support	•	•	
Customizable Print-Time Prompts for Keyboard/Scanner Data	•	•	
Automatic Time and Date Values with Offset	•	•	
Includes Many "Ready-to-Print" Formats	•	•	
Computation of Label Size from Number of Rows and Columns	•	•	
Thumbnail Previews of Saved Labels	•	•	
Comment Area for Label Designs	•	•	
Metric and US Measurement Systems	•	•	
BAR CODES			
Numerous 1D Symbologies (See Page 3)	•	•	
Numerous 2D Symbologies (See Page 3)		•	
Unlimited Width and Height	•	•	
Minimum Width Limited Only by Printer Resolution	•	•	
UCC/EAN 128 Assistant	•	•	
Automatic Check Digit Capability	•	•	
Sequentially Numbered Bar Codes		•	
Place Characters Above or Below Bar Codes, or Do Not Print	•	•	
Horizontal and Vertical Character Positioning	•	•	
Customizable Character Template	•	•	
Independently Suppress or Display Characters from Different Sub-fields		•	
Option to Display Start/Stop Characters	•	•	

		Basic	, professor	Sional Enterpri	
	FEATURES	E	DITIO	NS	
	PRINTING				
	Set Starting Position on Pages of Partially Used Labels				
	Printer-based Bar Codes and Serial Numbers			•	
	Job Logging			•	
	Speed Optimization Using Repetitive Data Control		•	•	
	Hundreds of Printers Supported		•	•	
	True Windows Driver Compliant	•	•	•	
	Local or Network Printer Support	•	•	•	
	Performance-enhancing Printer-controlled Serialization and Copies	•	•	•	
	Number of Identical and/or Serialized Copies Selectable from		•	•	
	Keyboard and/or Read from Database				
	SERIALIZATION				
	Simple Serialization (Increment, Numeric Base 10)	•	•	•	
	Increment or Decrement by Any Interval		•	•	
	Separate Rollover/Rollunder and Value Reset Options		•	•	
	Preserve or Expand Field Length When Rolling Over		•	•	
	Numeric, Alphabetic and Custom Base Serialization		•	•	
	DATABASE OPTIONS				
	Microsoft ODBC Support, Including Drivers for: Access, AS/400,		•	•	
	Btrieve, Clipper, dBase, Excel, FoxPro, Informix, Interbase, Oracle, Paradox, Progress, SQL Server, Sybase, and More				
	ASCII Text Files (Quote and Comma, Comma, Tab, User-Defined Delimiter and Fixed Width)		•	•	
	SAP (mySAP.com and R/3)		•	•	
	Versatile Multiple-table Data Access		•	•	
	Import Variable Graphics from Databases		•	•	
	Data Query Wizard		•	•	
	Custom SQL Assistant		•	•	
	Individual Record-picking at Print Time		•	•	
4	DATA MANAGEMENT				
	Visual Basic Scripting for Custom Data Processing		•	•	
	User-definable Min and Max Field Lengths		•	•	
	Customizable Data-entry Filters and Error Checking		•	•	
	Multiple Sub-fields Concatenated per Label Object		•	•	
	Multi-data Source Selection Per Label Object	•	•	•	
	Easy Entry of Special and "Unprintable" Control Characters	•	•	•	
	Shareable Data Fields		•	•	
	Customizable Message Box Handling	•	•	•

Error Logging

System Requirements

Processor and Memory

On Windows 95, 98 and Me: 486/66 and at least 32MB RAM

On Windows NT, 2000 and XP: Pentium or equivalent and at least 64MB RAM

Hard Disk Requirements From 10MB to 49MB

Add 18MB if installing MDAC (ODBC) drivers.

Note: Enterprise Edition requires TCP/IP Network Protocol.
