

B4

Handling larger boxes

The B4 is a machine which has been constructed to service users with smaller amounts of waste, but who still need a machine to handle bulky materials.

The machine is characterized by a very wide filling opening of 1 metre, which is an advantage when handling larger cardboard boxes. The chamber is equipped with rows of efficient barbs, which keep the material back and ensure optimum filling.

1.

- **Large filling opening**
 Advantage when handling larger boxes
- **Easy to replace strap rolls**
 They are placed in front
- **Automatic ejection**
 Two-hand operation ejects the bale

2.

3.

Technical specifications	
Press force (t)	4
Power supply	1x230V 50Hz 10A
Motor (kW)	1.1
Noise level (dB)	65-68
Cycle time (sec)	26
Dimensions WxDxH (mm)	1190 x 1045 x 2370
Weight (kg)	575
Filling opening WxH (mm)	1000 x 490
Filling height (mm)	915
Chamber height (mm)	1290
Stroke (mm)	750
Bale size WxDxH (mm)	1100 x 700 x 800
Bale weight cardboard (kg)	70-100
Bale weight plastic (kg)	90-120

An efficient and strong ejecting system ensures easy handling of the compressed bale.

The strap rolls are easy to replace in front of the machine.
