Audit Trail + 308
The new feature that finally records the EXIT too!

Increases the audit trail performances of
CISA electronic locks "mylock" and "wavelock"

CISA

security experience

Audit Trail +, combined with the automatic deadbolt CISA lock, records **both the entrance and the exit.** It's finally possible to trace **who** (card) **left** the room and **when**, for improved monitoring of staff and guests.

Audit Trail + allows to trace:

- **1]** who presumably left the door ajar (deadbolt not thrown)
- **2]** who left the room, opening the door with the inside trim

Lock name	Event date	Event time	Operation	Result	Access ID
101	09/06/03	10,25	Guest card	Successful	JOHN SMITH
101	09/06/03	10.23	Emerg. w/o battery	Successful	JOHN SMITH
101	09/06/03	10.20	Delayed close	Successful	
101	09/06/03	10.18	Opened since	Successful	
101	09/06/03	10.18	Guest Card	Successful	JOHN SMITH
101	09/06/03	10.17	Emergency key	Successful	
101	09/06/03	10.17	Not open	Successful	
101	09/06/03	10.17	Guest Card	Successful	JOHN SMITH
101	09/06/03	10.17	Internal open	Successful	
101	09/06/03	10.16	Guest Card	Successful	JOHN SMITH
101	09/06/03	10.16	Delayed close	Successful	
101	09/06/03	10.12	Opened since	Successful	
101	09/06/03	10.12	Internal open	Successful	
101	09/06/03	10.10	Guest Card	Successful	JOHN SMITH

1] **2]**

Authomatic ejection

Benefits to the hotel

- Improved management of disputes; greater protection from fraud attempts by staff and guests.
- Greater prevention (when staff is aware of the function).

Benefits to the guest

- Greater security, even after leaving the room, thanks to the automatic deadbolt lock.

Features

- **Audit Trail +** identifies the door ayar **recording** the automatic deadbolt st tus (thrown or not).
- **Audit Trail +** records the time the door stays ajar.
- **Audit trail +** makes it easier to find out **who** was the last to **enter** (or to **exit**) and **when**.
- **Audit trail +** has an **"anti-tampering"** function, which alerts clear the lock tamper emitting a prolonged light signal before any opening.

Audit trail + is available on smart card technology "mylock" (AoD##.01 and AoD##.21 series) and on contactless "Wavelock" (AoH##.20 series) electronic locking systems, together with the antipanic mortise lock with automatic deadbolt (5A200.##.#.##.LG series).
